NOTICE

_This application is a purpose-made project to provide residency as work place of artists. And 'Execution of Project' is the major aim of this application.

_IAP supports very limited information on projects. Our representatives will not be available in the district of Peace Arts Residency during a program period. Please make sure that everything about political, regional, actual information of Baengnyeong-do is researched clearly before you perform the project. We would like to request you to research about those areas specifically; Baengnyeong-do

_ Although most of Koreans, including me are relatively very peaceful unlike the perspective of worries and fears from outside world, you should bear in mind that Korea is still technically at war. For example, a submarine from S. Korea's navy was sunk by N. Korean army in the front sea of Baengnyeong-do in 2010. Moreover, there was a booming of Yeonpeong-do in same year.

** IAP is not responsible for the loss, damage or theft of any personal property, Safety.*

_ There will not be permanent residence managers and translators in Baengnyeong-do, which means that you may easily face tough situations in order to arrange your project by yourself.

_The place of Baengnyeong-do Peace Arts Residency where being operated can be a bit more inadequate than IAP studio as it was used a slabs-roofed house of the head of the town.

Also you could share spaces with other artists in the studio building. For more information, please refer to the picture on top beforehand.

_We are to inform you that a budget written in application of residency will be changed after the selection.
